

# Children's Mental Health Initiatives in Wisconsin

## SECTION 1

### Description:

This section is organized by state agency beginning with the Department of Children and Families (DCF), the Department of Health Services (DHS) and the Department of Public Instruction (DPI). Initiatives are ordered within each agency from highest annual funding amount awarded to lowest, unless noted. There may be instances where annual funding is ongoing and may vary slightly from one year to the next, in those cases only one sample year was noted. Initiatives that met criteria for inclusion are those that have current or ongoing funding specific to children's mental health and/or their families with funding either awarded by the federal government or included as part of the state budget. If a state agency awarded funds to another child serving agency through a formal process or agreement, those initiatives are listed in Section 2. The heading for the column labeled 'Division' denotes the division within the state agency that was originally awarded funding. Other divisions may be involved, but will not be listed.
