

### Questions for CIP Applicants:

Of the principals of practices listed on the application, which ones are you most familiar with?

Which are you least familiar with?

What is your understanding of TIC and the impact of early childhood adversity?

You indicated that you would like more information on \_\_\_\_\_. What is your preferred method of learning? (ie: Visual – webinars, reading, interactive, viewing websites, etc)

Sometimes the meetings can be very technical, and the people at the tables may speak about systems issues without an understanding or recognition of the impact it has on the people that are served. If something upsetting happened during a meeting how would you address it – in the moment or afterward?

What kind of support system do you have in place if something upsetting or stressful happens during these meetings?

How do you care for yourself to maintain balance?

If you could instantly make one change in the current children's mental health system, what would that change be?

Do you have any questions for me?

- Welcome to the team!
- We'd love to have you come to our next meeting and check it out before we ask you to join.
- We'll put you on our waiting list and notify you if an opportunity arises for you.
